BIO-C® PROFESSIONAL STRENGTH BACTERIAL/ENZYME CONCENTRATE

PRODUCT DESCRIPTION

- Actively accelerates the natural breakdown of organic matter
- Contains multiple extracellular enzymes for efficient digestion of proteins, carbohydrates, fats, oils, and grease
- Billions of non-pathogenic safe bacteria enzymatically digest the source of stains and odors
- Neutral pH, non-flammable, biodegradable, non-corrosive
- Suitable for drains, grease traps, portable toilets, and more
- Not a disinfectant

PURPOSE & DIRECTIONS

- Remove/clean as much residue as possible
- Shake Bio-C well before use
- Use undiluted for drains, up to 1:128 for other applications. See additional guidelines.
- For best results, allow to saturate contaminated area for up to 24 hours (esp. carpets and textiles)
- Ideal temperature: 50–80°F (10–27°C)
- Avoid exposure to extreme temperatures
- Never mix with disinfectants (destroys active ingredients)
- Always test inconspicuous area for colorfastness on carpets and textiles

SUGGESTED APPLICATIONS

- Septic/sewage
- Trash receptacles
- Pet stains
- Bathroom fixtures
- Holding tanks
- Drains/grease traps
- Portable toilets
- Animal shelters
- Grout/floors
- Disaster recovery

SUGGESTED DILUTION RATES

- Full strength – Drains, grease traps, etc.
- 1 oz. per gallon – Use within 24 hours once diluted
- 5 oz. per gallon – For more severe cases
- One Pro-Blend Bottle Proportioner included free with every case

PRODUCT PROFILE

- Powered by multiple strains of naturally occurring Bacillus bacteria
- Formulated with stabilized spores that activate on contact with organic waste
- Breaks down common problem materials: fats, oils, grease, starches, proteins, and fibers
- Produces a full range of natural enzymes for faster, more complete digestion
- Safe, non-pathogenic, and free from harmful contaminants

TECHNICAL DATA

ECOZ™ WATER-SOLUBLE ODOR CONTROLLER CONCENTRATE

PRODUCT DESCRIPTION

- Highly concentrated, water-soluble, odor-neutralizing liquid
- Can be used alone or to enhance any cleaning solution
- Provides extra deodorization with 100% compatibility with cleaning compounds
- May be combined with disinfectant solutions
- Biodegradable, non-flammable, non-corrosive
- Zero suds profile and neutral pH

PURPOSE & DIRECTIONS

- Dilute ECOZ with water in mop buckets, high-pressure or trigger sprayers, carpet/rug cleaning machines, etc.
- Increase concentration for severe odors
- Add 3–4 ounces to final rinse cycle when laundering fabrics/textiles
- Use on walls, floors, and other water-safe surfaces
- If used with extractors: avoid ECOZ Lemon (citric acid can damage rubber seals)
- ECOZ is not a disinfectant
- Avoid extreme temperatures during use and storage

SUGGESTED APPLICATIONS

- Carpet/rug shampoos
- Floor rinsing solutions
- Toilet & urinal cleaning
- Portable toilets
- Kennels/pet areas
- Trash receptacles
- Laundry rinse
- Disaster recovery

SUGGESTED DILUTION RATES

- ECOZ dilution ratios: 1:1 to 1:128
- 1 oz. – 32 oz. spray bottle; 1 oz. per gallon – Mop bucket, carpet extractors, etc.; 3–4 oz. – Final rinse cycle in commercial washing machines
- One Pro-Blend Bottle Proportioner included free with every case

TIPS FOR USE

- Recommended for carpet extractors: ECOZ Neutral, S.O.S, or Linen (avoid Lemon)
- Fragrance stable under high extractor operating temperatures
- Always shake well before use

REORDER INFORMATION:

QUARTS:

- S.O.S (#90-1500)
- Neutral (#90-1600)
- Lemon (#90-1800)
- Linen (#90-1900)

GALLONS, 4/CASE:

- S.O.S (#90-1501)
- Neutral (#90-1601)
- Lemon (#90-1801)
- Linen (#90-1901)

5-GALLON MINI-DRUMS:

- S.O.S (#90-1505)
- Neutral (#90-1605)
- Lemon (#90-1805)
- Linen (#90-1905)

55-GALLON DRUMS:

- S.O.S (#90-1503)
- Neutral (#90-1603)
- Lemon (#90-1803)
- Linen (#90-1902)
